PRODUCT CATALOGUE 2025

Founded with a passion for redefining bathing experiences, Goeka is a leading name in the world of bathware. We offer a comprehensive range of products that combine innovation, durability, and elegant design to transform everyday routines into moments of comfort and luxury. Based in India, Goeka has rapidly established itself as a trusted brand known for its quality, craftsmanship and customer-centric approach. With decades of expertise and a vision for the future, we bring world-class bathroom solutions to homes, hotels, and commercial spaces across the country and beyond.

At Goeka, we believe the bathroom is more than just a functional space—it's a sanctuary. Our philosophy centers around quality, innovation, and trust. Every product we create is engineered with precision and designed to enhance your lifestyle. We are committed to delivering products that not only meet global standards but also anticipate the needs of tomorrow.

Design

Design is more than just form, color, or style it's a philosophy. At GOEKA, we believe great design combines visual elegance with practical excellence. Our award-winning designers go beyond aesthetics to deliver exceptional functionality and user-centered experiences. It's the commitment to precision and innovation that has earned us global recognition from bold concepts to refined details, every element is carefully crafted to elevate your daily routine. Whether your taste leans toward Contemporary, Traditional, or Cutting-edge, we offer tailored solutions that match your lifestyle — and thanks to our timeless approach, your space will remain relevant well beyond passing trends.

Service

Customer satisfaction has always been-and will always remain-our top priority. We believe in working hand-in-hand with you to provide the most effective and reliable solutions. Delivering premium-quality service with a personal touch is at the core of how we operate. Whether it's a question, concern, or a unique request, our team is always ready to assist. Your trust drives us to do better every day, and we are here to support you at every step.

Quality

Since our inception, people around the world have placed their confidence in our reliable products, crafted with passion and precision. Rooted in a tradition of excellence, we stand for superior quality, timeless design, user-friendly innovation, and smart functionality. Our philosophy, "Engineered with Integrity," continues to guide every product we create. With every faucet, shower, or accessory we manufacture, we uphold the same high standards across all our facilities, ensuring consistency and performance. As a mark of our commitment, this is our promise of trust, quality, and long-term support.

for Urinal Sensor

GET WATER WITH TOUCHLESS SENSING DEVICE

You turn on the faucets to get your hands cleaned but cannot avoid getting your hand dirty again when you turn it off.

INFRARED SENSING WATER

Side sensor (within 5.5cm) can induce water flow in just 0.15 seconds. Sensing your hand for the first time to turn on the water, the second time to turn off. Easy to use with stable functioning.

Front sensor for instant On/Off

AIR INJECTION TECHNOLOGY AVOID EXCESSIVE USE OF WATER TO BE ENVIRONMENTAL FRIENDLY

This intelligent water saving device is embedded with air injection technology which increase the ratio of air to soften the water flow and to do better cleaning. The water flow is 0.07L/s under the 0.1MPa water pressure, meeting the level 1 water efficiency standard to help you spend less on water every month.

COV-011B
Dual Sensor Aerator for Faucet

Features

- ABS Body
- Includes 6 Sizes of Adapters.
- Upto 10 months working on single Charge
- Time up protections.
- Help Reducing water wastage.
- Air injection technology reduces water wastage upto 65%
- Easy to assemble & install.
- USB Charging.

- Side sensor for regular flow
- Front sensor for Instant On/Off
- USB Chargeable
- Long Battery Life (upto 10 months)
- Chrome Plated ABS body
- Can be installed on almost all faucet (5 fixtures & USB wire included)

INTELLECTUAL PROPERTY

Goeka retains all rights to patents, trademarks, copyright, trade secrets and other intellectual property rights. Purchase obtains no rights to use of such intellectual property.

PRODUCT PHOTOGRAPHY

Products are for representation only & may vary to the actual products. colours are a guide only.

TERMS & CONDITIONS

1. Door delivery available (extra charges may apply)
2. Delivery days are approximate, Goeka cannot held responsible for delays in delivery.
3. Logistic charges can change without prior notice,

PRODUCT MAINTENANCE

Q : HOW SHOULD I CLEAN OR MAINTAIN THE FINISH ON MY FAUCET?

A : Always bolt dry any water from faucet surface. allowing water to evaporate on the surface can lead to mineral deposits. Cleaning with a damp non-abrasive sponge and buffing it dry with a clean and soft cloth should help keep your product looking beautiful. To remove water spots, use warm water and a soft, damp cloth. Hard water stains ,may be removed using a 50/50 solution of white vinegar and water. Make certain that you rinse thoroughly with water afterward.

Q : HOW DO I KEEP THE SURFACE OF MY SHOWER CLEAN?

A : We recommend cleaning your shower base with a non-abrasive and/or non-caustic cleaner to prevent scratching or dulling of the finish.

Q : HOW CAN I CLEAN AND/OR REMOVE MINERAL DEPOSITS FROM MY SHOWERHEAD?

A : Wipe the face of the showerhead (Rubber Nubbin) to loosen and break away deposits. Learn more about touch-clean. Non touch-clean shower heads or stubborn deposits - unscrew the showerhead and soak it in a 50/50 vinegar and water solution for several hours. For stubborn deposits, rub with a toothbrush.

CLEANING BRASS & CHROME FIXTURES.

Brass fixtures look beautiful in a bathroom, but with them come a certain responsibility. While polishing brass might not be one of the more pleasurable aspects of cleaning a bathroom, it doesn't have to be tedious. To get your brass to shine, cut a lemon in half and dip it in some salt. Rub this on the brass and wipe with a clean cloth. If you don't have a lemon handy, make a paste from vinegar, salt and flour. Rub this into the brass and dry with a thick cotton cloth. Sometimes cleaning products will leave behind a film.

If not properly maintained, chrome fixtures can become dull and cloudy. After cleaning a bathroom, you want your chrome fixtures to sparkle ! For blinding brilliance, make a paste of baking soda and dishwashing liquid. Apply this to your chrome fixtures and rub clean with a cloth. Warm vinegar will also make your bathroom shine. Here's an additional bathroom cleaning tip: to clean stain from your bathroom chrome and tile, use baby oil wipe off with a cloth diaper for a lint free shine.

Q : HOW TO CLEAN MIRRORS?

A : Hurried morning grooming can mean a mess later if we are not careful. If your vanity mirror is dull from hairspray buildup try this bathroom cleaning tip: washing the mirror with a solution of clarifying shampoo and water will eliminate th sticky haze caused by sprays. For a no lint shine, wipe clean with a lint free such as a cloth diaper or coffee filter.

A cloth dampened with rubbing alcohol will not only help to remove hair spray buildup from the mirrors but also assist in cleaning Bathroom tiles of sticky hair care products.

AVOID USING THE FOLLOWING WHICH CAN DAMAGE YOUR FINISH:

- 1) Avoid industrial cleaners and abrasive cleaners, such as those used for toilet bowls, green scotch-brite heavy duty scrub sponges, scrubbing bubbles bathroom cleaner and lysol basin tub, soft scrub, and tile cleaner.
- 2) Avoid products that state on the label that they remove tarnish and rust, and those containing hydrofluoric, hydrochloric and/or phosphoric acids caustic agents.
- 3) Avoid harsh abrasives and polishes.
- 4) Avoid bleach-based cleaners.

For best cleaning, Use GOEKA Faucet cleaner

FC-001
Faucet Cleaner Solution

Note

Save Water

Think before you let it drip.
